About Us

The system is more powerful
than intuition

Phoenixes is a technology-driven investment platform that combines algorithmic asset management, market analytics, and artificial intelligence.

The company was founded on the basis of practical experience working with digital assets and financial markets since 2012.

During this time, the team has helped tens of thousands of clients navigate the market environment with greater confidence and develop a more systematic approach to achieving their financial goals.

To leaders

Leadership Program

You can earn bonuses based on your team's performance

UP TO 100 depth passes ranging from 2% – 10% of the entire team

UP TO 100 LINES IN ADDITION TO REFERRAL LINES!

This is more than just leadership bonuses—it's a philosophy of growth, recognition, and genuine influence. Here, we value not only results but also strength of character, the ability to lead, and the power to inspire others. All of this is designed specifically for those who are ready to take on responsibility, achieve more, and truly be called a leader.
