

Event-Driven AI Trading

New Generation Trading

Event-Driven AI Trading is a next-generation approach to trading that combines Artificial Intelligence, real-time global information, and automated trading technology.

📌 **JUST LAUNCHED:** The industry's first ever Event-Driven Ai Trading System that works synergistically with two AI giants

Phoinexes AI

Phoinexes AI, monitors political events, news, weather and more.

Based on when an event is triggered anywhere in the world, financial markets rise and fall.

For example, such as an event happens in the Middle East and oil prices immediately rise.

In simple terms, when the world's leaders make a military or economic decision, inevitable market volatility occurs.

World events affect all financial markets, ie: cryptocurrencies, exchanges, oil prices, and all precious metals.

THE TECHNOLOGY

1 The News

Our **FIRST AI engine** studies the news, and is connected to all global news portals and media worldwide. In an instant, the AI draws conclusions about what might happen in the markets.

2 The Markets

The instant signals occur that the markets will rise or fall, its partner, the **SECOND AI engine**, connects and trades on stock markets, exchanges and cryptocurrencies to make money on the market volatility.

Stock markets have done this for years, but never at the lightening speed of AI tech! ⚡

TECHNOLOGY

Phoinexes Event-Drive AI Trading works side by side with continuous multi world events, and in connection with compound interest, which allows an investment capacity that has never been available to the public before.

Our two proprietary AI software's assist each other simultaneously 24/7, because one piece of news can change in minutes, causing the market to become volatile again. Thus allowing profit to be made repeatedly.

The Hidden Advantage

World rulers of the entire global economy, including cryptocurrencies, secretly make billions from the Event Driven market, and the average person knows nothing about this!

The general public cannot benefit from this, until now...

Phoinexes has changed the game.

Allowing anyone to benefit through profits that take place from dynamic volatility across global markets.

Disclaimer: As with any trading strategy, returns are not guaranteed and losses are possible. You are responsible for your financial decisions.

The technology is designed to respond to opportunities that develop within seconds of major market-moving events, and cohesively execute trades to give investors the best possible outcome.

The two AI engines are working flawlessly since 2021.

Cash Flow Packages

Investment packages are 5 days per week

U.S. Licensing being acquired

An **INDUSTRY FIRST**: Insured Investments

How many times have you made an investment only to have lost it forever? Probably more times than you can count. You may have have 'broken even' and sometimes profited a great deal, but on other occasions, it can be a loss altogether.

Phoinexes is the first ever company, to offer an **insurance policy on your investment**, partnered with a top insurance firm who will insure up to **\$100 million** in investments.

Upon an audit of the company, the firm was beyond impressed and satisfied with the AI's powerful ability to generate substantial income. This resulted in the agreement to securely provide **risk management coverage** to any amount **\$500 and above**. Exclusively for Phoinexes members peace of mind and confidence in their growing portfolio.

Minimal policy fees per deposit of \$500 and above will apply - rates coming soon.

About Phoinexes

We've already begun a NEW CHAPTER of excellence when Phoinexes launched on 7/27/2026.

Having been tested and developed during a 5 year span, this AI works flawlessly and effortlessly since 2021.

At the time of this presentation, there are 1600 members and growing.

Company address: 133 CASTLEREAGH ST, SYDNEY, NEW SOUTH WALES 2000 Registration Number: 697 441 142 -

New Markets Emerging

New markets in the investment industry are emerging that have never existed before now. AI has made this possible.

The early movers will be the ones to reap the benefits.

Those who are slow to accept the ability of AI in big market industries, will watch the action takers from the sidelines.

We welcome you to join the action takers.

Pioneers

Take note, that while the Phoinexes marketing is still in it's RAW stages, people are NOT waiting.

The AI technology, plaform and daily payments work seamlessly.

Wait for things to be perfect and you will never start. This is true of everything.

This Is Only The Beginning...

Please get back to the person who invited you for their link to get started, and lock in your account before your team, so it's **YOU** who shares the **New Generation of AI Trading** with *them*.

Your journey has just begun!
